Introduction

Automotosport Federation of the Republic of Kazakhstan is proud to present Rally Kazakhstan, a part of FIA World Cup for Cross Country Rallies since 2016 and for the very first time a round of the FIM Cross Country Rallies World Championship. The event, near the Caspian Sea, showcases the spectacular countryside and difficult sand dunes in the region over 5 long days of arduous stages.

The Ceremonial Start and Finish of the Rally will take place on the main seashore of Aktau city with incredible view on Caspian Sea. This year's main hotel will be again Caspian Riviera Grand Palace, the most luxurious 5-stars hotel in the city, located just 1500 meters away from the Ceremonial Start of the Rally.

Following the ceremonial start, the first stage on May 24th will move for 2 nights only to the Caspian Seashore at Kenderly Sea Resort, just 250 km from Aktau. The resort is famous for its warm sea and shallow water. The average altitude above sea level here is above 0 meters and first stage's altitude will be around -100 meters below sea level.

We offer more than 1 750 km of Special Stages over 5 cross country stages within a total distance of 2 000 km for the competitors. The event enjoys indispensable governmental support to ensure its success, along with emergency helicopters and numerous medical cars on the route.

Navigation and Safety Equipment

Tracking and Timing

This year Rally Kazakhstan will use a timing and tracking system provided by rally specialists Sporttraxx

The system will use Iridium Satellite and GSM based tracking. No additional brackets or cables need to be purchased for this system but will be provided and installed by Sporttraxx during technical verifications. All vehicles need to arrive at Technical Verification with a power supply connected directly to battery; this open end cable needs to be made available on the dashboard, on the co-driver side. For motorcycles the cable needs to be situated under the instruments tower.

For motorcyclists, the main device will be fixed on the bike and the small wireless remote control will be carried on their person. For cars it will be fixed to the vehicles roll cage and the remote control will be accessible on the dashboard. No external antenna is required. The internal batteries last for the entire duration of the event.

There will be a deposit taken at event registration on for the safe return of the Tracking and Timing Equipment.

Instructions for the use of the device are available here <http://goo.gl/mijNoq>

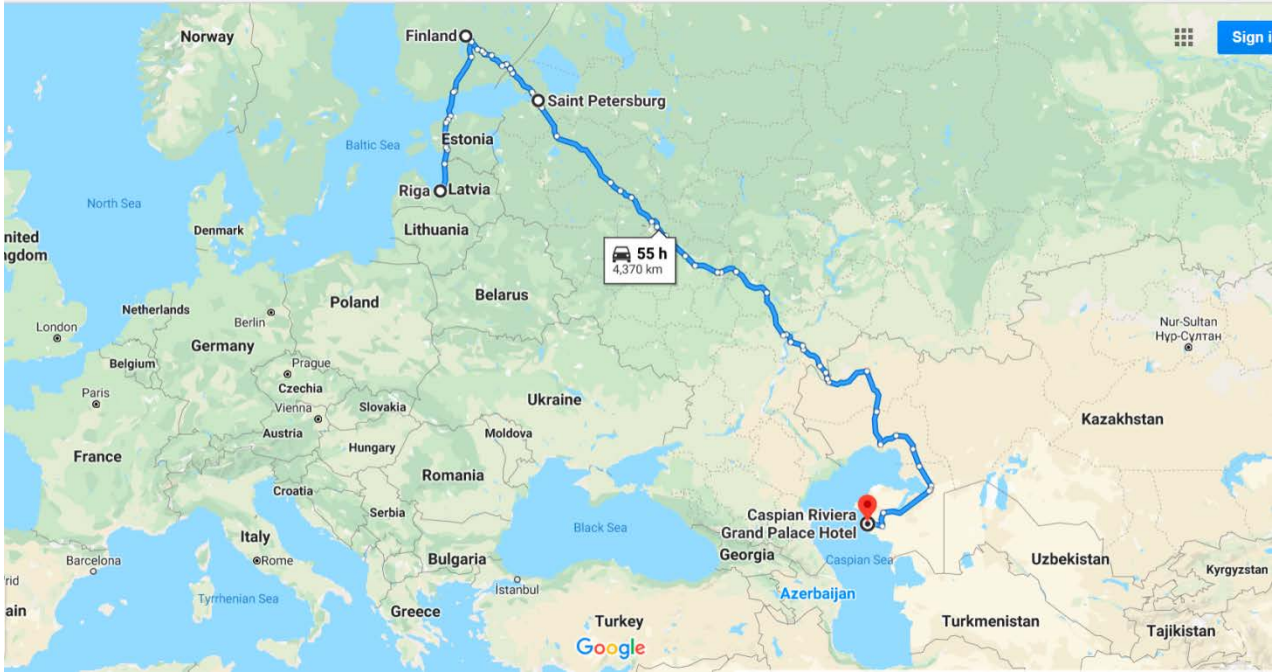

Navigation and Sentinel

The AMFK will continue working with ERTF to provide navigation and sentinel for competitors. The cost of these devices is not included in the Entry Fee, and must be paid directly to ERTF.

Further information about the systems and technology that will be used in 2020 can be found on Rally Kazakhstan official website www.rallykazakhstan.com.

Shipping and Customs

We are pleased to inform you about our long and trust Partnership with Xtreme Plus Polaris Team who is arranging delivery of the vehicles from Europe to Kazakhstan on the following route:

Нравится [ivansed0v](#) и ещё 22 [xtremeplusfrance](#) @Rallye Kazakhstan

We are again for 2020 supporting the logistic for one of the best rallye , Rallye of Kazakhstan!!! We really suggest to all driver to at least race once this over 2000 km rallye.

Is for sure today one of the best race , with sand , gravel and dune.

The location of the bivoauc is just fabulouse , on the caspian sea.

The cost of this rallye are really affordable , also because the entry for assistance crew is very cheap. Below the form to book your transport , we care about all from France to Kazakhstan and return. If you need more info please contact us!

 @PressMFAKZ

All other Nationalities must procure a visa prior to travelling to Kazakhstan. Additional information can be found on www.mfa.gov.kz or upon request to organizers rallykazakhstan@gmail.com.

Starting from 01 January 2020 Kazakhstan has cancelled mandatory registration for foreign tourists staying in the country up to 30 days.

Water

The tap water is heavily purified and safe to drink, but we would recommend the locally bottled mineral water. Organisers will provide each person on the rally as much bottled water as needed.

Electricity

The electricity supply is 220 volts and 50 cycles; the socket type is two pin system; most hotels have adapters for electrical appliances.

Transportation

You can enter the Bivouac with a regular car, although 4x4 vehicles would be required for driving in the sand. The organizers insist that only experienced desert drivers take vehicles off road. Only vehicles with valid door plates from the event will be permitted in the bivouac.

For Aktau city, Rally Kazakhstan Organizers will provide shuttle buses from Airport to Main and Partner Hotels upon request.

Crew

Competitors, Service Crews, Media, Officials and Organization personnel will all be identified with colored wristbands.

Telecommunications

There are three main telecommunication services providers in the Kazakhstan: Beeline, Kcell and Altel.

The telecommunication tariffs are reasonably competitive.

The international dialing code of the Kazakhstan is + 7.

Driving rules

To drive in the Kazakhstan, you must hold an International Driving Permit and/or a driving license issued in your country of residence.

In Kazakhstan you drive on the right hand side of the road. It is mandatory to wear seatbelts. Most of the roads are monitored by both fixed and movable radars. Speed limits are usually 60 km around town and 90/100 km on the highways. The speeding fines vary depending on the excess speed level.

The Traffic Police exercise a zero tolerance on drinking and driving.

If you are involved in a traffic accident, however minor, your car **MUST** remain in position and you **MUST** stay with it while awaiting the Traffic Police (by calling 102). All insurance claims require a police report to be processed.

Airport

It is worth taking a look at the website of the airport before your arrival:

- Aktau International Airport: www.aktau-airport.kz

Emergency services & numbers

- Ambulance – 103
- Police – 102
- Fire – 101

Healthcare and Medical facilities

The general standard of healthcare in the Kazakhstan is high, both in the public and private sectors, although private hospitals have some distinct advantages (predominantly English-speaking, less waiting time, less cultural restrictions).

Medical facilities are of a very high quality but are extremely expensive. Private health insurance is essential, and highly recommended.

Pharmacies are open 24/7.

Photography

Normal tourist photography is acceptable, but it is courteous to ask permission before photographing people.

In general, photographs of government buildings, military installations, ports and airports should not be taken.

Vehicle spares and services and franchises

We recommend to use the services and to buy the spares from the official car dealers of the Kazakhstan.
