- minor injuries, assistance on which is possible after the rest of the rally participants passes.

### **2. Category of injured:**

- pilot;
- the navigator;
- technical staff;
- officials;
- Viewers.

### **3. Sport number of the injured crew.**

### **4. Place and circumstances:**

The scene of the incident is attached to one of the following points:

- positions in the road book;
- positions of the security plan;
- kilometer of the high-speed section;
- to a local facility (populated point).

### **5. The ability to travel along the highway section of other participants in the rally (the sports track is blocked or not).**

### **Example of the report:**

"We need hospitalization, a pilot of a car 63, a post " ... " 200 meters after a mark of 10 km, an inverted car is on the track. Travel is not possible. Reported by: Ivanov Ivan. "

## INSTRUCTIONS

### for the work of police officers, volunteers in the high-speed part of the rally.

**The representative of the management of the rally for security at the SS (or his deputy) in accordance with the "Safety Plan":**

- Checks the placement of SS overlaps and the presence of volunteers on the ground;
- Checks for the presence and correctness of the route fence with a restrictive tape;
- Checks the presence of ambulance crews, police officers and the Ministry of Emergencies on the ground at the planned "points" along the SS route.

**Volunteer, police officer after arrival at the workplace:**

- Marks his post with a restrictive tape in accordance with the instructions received;
- He puts on a yellow (orange) waistcoat.

**After the route is closed:**

- Correctly suppresses all attempts to appear on the highway auto, moto, agricultural machinery within the entrusted to him post;
- Correctly suppresses all attempts to appear on the route of people within sight;
- Provides information on the duration of the traffic blocking regime for the population and other road users;
- Gives out "Safety Leaflets" to viewers referring to him;
- Warns spectators about the approach of a sports car;
- Takes care of his own safety.

**Actions in the event of a sports car accident:**

- Find out the condition of the injured crew, the severity of the injuries.
- Immediately report on the available means of communication about the accident to the senior manager by subordination. If there is no communication, report the incident to the next three crews;
- In case of serious injuries, do not attempt to provide medical assistance to the crew independently, this can only do harm.
- Disconnect the "mass" of the car's power supply by turning on (pressing) the toggle switch (button) indicated by a red lightning against the blue triangle. The toggle switch (button) is located at the left or right car windshield rack.
- In case of a car fire, activate the fire extinguishing system by turning on (pressing) the toggle switch (button) indicated by the white letter "E" against the background of the red circle. The toggle switch (button) is located at the left or right car windshield rack.
- In case of fire (or its threat: leaking combustible lubricants) or threats of flooding a sports car with a crew, take measures to evacuate athletes. If you can not release the athletes from the seat belts, use a knife-stroporez (bright orange colored, fixed in a prominent place in the car.)
- Check the installation or independently set the emergency stop sign behind the car at a distance so that subsequent crews clearly observe it.
- In case of blocking the route or finding an emergency car on the route, take measures to alert the subsequent crews.
- Assist the medical crew upon arrival.
- When landing (take-off) a medical helicopter, provide a zone free from spectators 50X50 meters.

**Remember - you are a security officer on the route. The health and life of athletes, spectators depends on your timely actions. Do not become a passive spectator.**

During the work of the Special section, cars move, as a rule, with an interval of 2-5 minutes. However, for a number of reasons such an interval may increase. **This does not mean stopping of the sports movement and removing the overlapping mode!** The termination of work and removal of the regime of traffic blocking is possible only **at the order from the Chief Safety Officer or after the closing vehicle "Marshall" passes.**

**Security Information:**

During the passage of special stages cars move with the maximum possible speeds. Any sudden change in the traffic situation raises the driver beyond the acceptable risk. The driver can lose control of the car, and the car's movement becomes unpredictable.

Working in the competition, strictly follow the instructions of the staff of the Directorate of the race and the Chief Safety Officer. Be careful and careful! Do not exceed the safety zones indicated by the restrictive tape. Remember that by violating these rules, you risk not only your own, but also someone else's life!

**Epecially dangerous places include:**

- External sides of ALL turns;
- External and internal sides of turns located after straight sections of the road (length more than 300-400 meters), before which the vehicle brakes intensively;
- Areas to the right and left of the track after the jumps and "throws";
- Areas to the right and left of the track after the pits, irregularities, altered pavement;
- Blind exit zones for cars from forest belts, lowlands, etc.

**LEARN THE LIMITED VISIBILITY UNDER THE DUST STOCK.**

**In case of rain, remember the increased danger when the cars turn around.**

**The termination of the work and the removal of the traffic blocking regime is possible only at the direction of the representative of the directorate of the security rally, the immediate commander or after passing the closing vehicle "Metla".**

## INSTRUCTIONS

to the security posts on the admission of vehicles to the highway speed section of the rally.

**Your task is not to allow motor vehicles, people, livestock enter the highway during the movement of sports cars.**

Sports cars are moving along the track at a high speed, and the sportsmen expect that there will be no unauthorized traffic on the road. Therefore, during the competition, traffic along the highway section of any transport, except for the sports cars and vehicles of the organizer listed below, **is prohibited**.

You must control the traffic on your segment of the highway and allow traffic along the road or to the road **only** to those cars that are allowed to pass here. They are:

1. **Sports cars** of the participants, marked with emblems of competition on the hood and start numbers indicating the name of the competition "RALLY KAZAKHSTAN 2019" on both front doors.
2. **Regional health care vehicles** with special coloring and flashing beacons.

Safety cars and ambulances can appear on the highway **at ANY TIME**. In most cases, their appearance on the road before the opening of free traffic means any incident requiring their participation. You need to stay in your posts. Please give them the necessary assistance.

1. **The cars providing the refereeing of the competition, the medical vehicles of the organizer** designated by emblems of competition on the hood with the name of the competition "RALLY KAZAKHSTAN 2019" on both front doors.

Cars that are not designated in the ways indicated above, including those bearing any other emblems of the competition (including the emblems of the "SERVICE") and referring to their involvement in the competition, **IN NO EVENT** shall they pass along the highway section **after the traffic is closed until** you obtain a permit to stop the work of the post.

**Do not give in to any persuasion, no matter how convincing arguments are given by the owners of foreign vehicles. Remember that life and health of people depend on your actions!**

**Determination of the calculation of the involved police forces and means in the Mangystau region, the location of their deployment after the detour of the route with the organizers of the "Rally Kazakhstan 2019".**

## **Rally Raid "Rally Kazakhstan 2019" ANNOUNCEMENT**

Dear friends!

Based on the Order of the Ministry of Culture and Sports of the Republic of Kazakhstan and the Akimat of the **Mangystau region of the Republic of Kazakhstan**, I-VI stages of the **Rally Rade "Kazakhstan 2019"** will take place on the territory of the MANGYSTAU REGION OF THE REPUBLIC OF KAZAKHSTAN: AKTAU-KENDERLY-SENEK-FORT SHEVCHENKO-AKTAU. The competition will be attended by up to 50 cars and trucks.

**In connection with the Rally-Rade**

**May 27 - June 1, 2019, from 8:00 to 18:00 will be closed for any traffic of road and field roads on the route of high-speed sections.**

We ask you to refrain from traveling on this day. In connection with the use for the race, including secondary roads, do not try to leave your cars there. Long breaks in the movement of sports cars do not mean the end of the race. On the day of the rally, the information you need about limiting traffic on the roads can be obtained from police officers and judges on the track.

**A kind request:**

Exercise special care and caution. Do not go out on the roadway during the entire specified time. Remove all cars from the roadside. Follow all instructions of race and police officers. Do not leave children unattended. Do not let pets and livestock get on the roads.

**Do not endanger your life and the lives of riders.**

**Take into account that in the hours of overlapping the track, ANY movement is FORBIDDEN.**

**Contact phone: +7 701 335 9316**
